Specifications

Ambient temperature range	-10°C to 100°C
Seal material	Fluororubber
Grease	Heat resistant grease (GR-F)
Specifications/dimensions other than the above	Same as the standard type

Note 1) Magnet is built-in, but when using an auto switch, the acceptable temperature range becomes -10 to 60 °C.

Note 2) With the part number for the dust cover option, only fluororubber (F) or silicone rubber (S) options may be selected.

Note 3) With the part number compatible with body options for MHZ series, only E type or M type are compatible.

Note 4) For lubrication, specialized grease GR-F is recommended.

Warning

Handling Precautions

Be aware that smoking cigarettes after your hands have come into contact with the grease used for this air gripper can create a gas that is hazardous to humans.

Fluororubber Seal

Specifications

Seal material	Fluororubber
Specifications/dimensions other than the above	Same as the standard type of each series

Note 1) Please contact SMC, since the type of chemical and the operating temperature may not allow the use of this product.

Note 2) Since the standard-type magnet is built-in, please contact SMC for the product's adaptability to the operating environment.

Note 3) For the air gripper with a dust cover, the dust cover material is also fluororubber. Thus, enter (F) for the fluororubber dust cover in the part number.

Note 4) With the part number compatible with body options for the MHZ series, only E type or M type are compatible.
